Light colours as mood enhancers

Tonalidades de la luz para crear ambientes que creano l'atmosfera

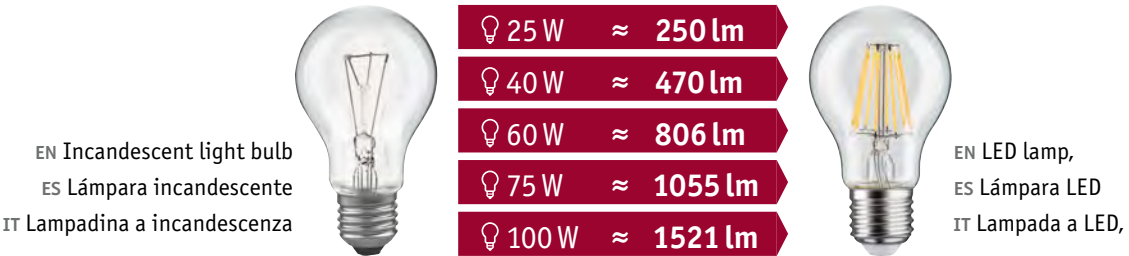

Colori della luce che creano l'atmosfera

Easy brightness comparison

Así puedes comparar la luminosidad fácilmente

In questo modo potrete comparare la luminosità in modo semplice

Did you know that LED lamps ...

Use at least 80% less energy than commercial incandescent light bulbs, last at least ten times as long, are fully bright immediately and can produce virtually any desired light colour from warm to cool whites and RGB?

¿Sabías que las lámparas LED ...

Consumen al menos un 80 % menos de energía que las bombillas convencionales, duran al menos 10 veces más, se encienden enseguida y pueden crear prácticamente todas las tonalidad de la luz deseadas, desde blancos cálidos hasta fríos, además de la selección del color RGB?

Sapevate che le lampade a LED ...

Consumano almeno l'80% di energia in meno rispetto alle normali lampadine a incandescenza, hanno una durata 10 volte maggiore, si illuminano immediatamente e sono in grado di generare quasi tutti i colori desiderati dalle tonalità di bianco da caldo a freddo alla gamma di colori RGB?
