

NightMatic 5000-3

Night illumination as the mood dictates. And exactly so.

Lighting generates emotions. Dramatic shop windows staged with lighting accents, and hoardings or building facades attract the attention of the observer and project the image of the owner. All automatically. Whenever the day goes to sleep, NightMatic 5000-3 wakes up and controls the finest lighting effects. Exactly when it really makes sense to and is wanted, thanks to the numerous setting options. On the technical side, the NightMatic 5000-3 comes with innovative, diffuse light measurement. This detects the level of light in its entire surrounding, taking better measurements than conventional light sensors. A must for budget-conscious management accountants and electricians.

You will find information on the interfaces from page 52 onwards.

Type	photo-cell controller
Dimensions (H x W x D)	95 x 95 x 42 mm
Power supply	220–240V, 50 / 60Hz
Where to use	Indoors and outdoors
Installation	Wall
Twilight setting	2 - 1000lx
Night economy mode	variable night OFF time
Setting	Light ON or OFF in the morning
IP rating	IP54
Temperature range	-20 to +50°C

Also suitable for parallel operating mode.
Intrinsic-light detection.
