CorDuo: floating light on fine cables

The newly designed cable systems create elegant lighting in the most demanding room situations. Beams, stucco ceilings, slanted ceilings, attics, slopes and corners no longer pose a problem, and the light can be distributed throughout the room from just one power outlet. The complete sets can be easily expanded to include additional spots and come in the modern matt system colours chrome, white and black. All system components, including the modern design spots, cables, accessories and flat, lightweight transformers come in the same colours.

CorDuo: luz flotante en cables de filigrana

Los sistemas de cables de nuevo diseño crean una iluminación elegante incluso en situaciones de espacio difíciles. Vigas, techos de estuco, techos inclinados o áticos, superficies inclinadas y esquinas se pueden superar sin problemas, distribuyendo la luz en toda la estancia con una única conexión eléctrica. Los juegos completos se pueden ampliar fácilmente con focos individuales y se presentan en los modernos colores de sistema mates cromo, blanco y negro. No solo los focos con su diseño moderno, también los mismos cables, accesorios y los transformadores planos y ligeros armonizan gracias a su color uniforme.

CorDuo: luce oscillante su fili filigranati

I sistemi a filo di nuova concezione garantiscono un'illuminazione elegante anche in situazioni particolarmente problematiche. Che si tratti di travi, soffitti in stucco, tetti inclinati o mansarde, piani inclinati e angoli, questa soluzione risolve ogni problema permettendo di distribuire la luce con un solo allacciamento alla corrente in tutta la stanza. I set completi sono estensibili con la massima semplicità mediante singoli spot e sono disponibili nei colori di sistema moderni e opachi cromo, bianco e nero. Non solo gli spot dal design moderno, ma lo stesso filo, gli accessori e i trasformatori, con la loro leggerezza, risentono positivamente dell'effetto armonizzante di questa colorazione uniforme.

EN Suitable GU5.3 lamps in 3000 K or 4000 K are also available in the three system colours

ES Lámparas GU5,3 compatibles de 3000 K o 4000 K en los tres colores del sistema
