

The PRO Series LED panels range are all made with top-quality PMMA diffusers which provides a uniformly distributed light and prevents the panels from turning yellow.

It proves its durability with exteriors composed of an innovative combination of Aluminium+PMMA+PP, and its energy-saving upgrade through the improved driver box and Samsung LED chip. Both frameless and big panels are inclusive of a quick connector for easy installation.

Key Features

- Inclusive of a quick connector
- Flicker-free; stable drivers eliminate flashes
- Better light quality: less false colour plots
- 80% lower power consumption than conventional downlights
- Standard dimensions for big panels available
- Choose from square and round frameless mini panels

Application

Widely used in offices, schools, hospitals, and commercial establishments
